

ANESTHESIA

Anesthesia RCM & Billing Services

AI-enabled solutions and white-glove service to maximize revenue for facility-based physicians

Time-based payments, hospital subsidies, labor market challenges, declining contract rates. These are the factors that make anesthesia one of the most complicated specialties in healthcare.

The Ventra Health Anesthesia Team is the most experienced in the industry.

Ventra's Strategic Approach

Billing and coding are table stakes. With Ventra, your practice can expect an end-to-end revenue cycle management partner that is fully invested in your performance. Our teams are experts in the complexities of anesthesia RCM, with longstanding payer and industry relationships.

We work with private practices, hospitals, health systems, and ambulatory surgery centers to deliver transparent, AI-enabled RCM solutions that solve the most complex revenue and reimbursement issues.

How We
Deliver

Client Onboarding Process

Dedicated client success, project management, and technical resources ensure we can scale quickly and minimize disruptions to cash flow.

Enterprise Service Delivery

Our global service delivery teams are Ventra employees, which gives us greater control over scale, quality, and outcomes.

vCision™ AI & Automation

Advanced agentic AI and automation technology leverage Ventra's curated data to target impactful opportunities for improvement in the revenue cycle.

Provider Enrollment

Our technology-enabled solution tracks and manages enrollment status through submission, revalidation, and the claims process. Ventra is one of the only RCM companies to fully integrate provider enrollment into the revenue cycle.

Patient Responsibility

Ventra's customized, data-driven approach improves the payment experience for patients and delivers consistent collections for your practice.

How We Optimize

White-Glove Service

Client Success team members are hands-on highly analytical partners who deliver high-touch, proactive support based on data insights.

Performance Surveillance Team

Our dedicated team of data scientists monitors your metrics 24x7x365 and mitigates issues before they impact your performance.

Provider Education

Coding and documentation experts educate your physicians to improve coding accuracy, reduce audit challenges, and increase revenue.

Payer Strategy & Contracting

We leverage longstanding payer relationships and our vast database of rates and terms to build data-driven support for reimbursement strategy and contract negotiations.

How We Measure

vSight™ Data & Analytics

Ventra's powerful platform provides actionable insights into your practice's health and performance. Metrics are updated daily so you never work with stale data.

Core Service Metrics

We track five core metrics that tell a complete story of your revenue health and provide actionable insights for mitigation and improvement. Our RCM and data experts help you use them proactively.

Feeling confident about compensation affects the daily life of our providers, and it has a big impact on how they feel about working at Pacific Valley Medical Group. When potential new colleagues hear positive feedback from our current anesthesiologists about the business side of our practice, that really helps set us apart from other groups.

—Phillip Lau, MD, Managing Partner, Pacific Valley Medical Group

Who We Are

Ventra Health is a leading business solutions provider for facility-based physicians practicing anesthesia, emergency medicine, hospital medicine, and radiology.

Your business is our bottom line. We ensure your success with our subject matter expertise, local payer knowledge, and best-in-class technology, so you can focus on providing outstanding care to your patients and communities.

With strong backing from our private equity partner, we've invested in the right people, processes, technology, and data to optimize client performance at scale.
