Healthcare coding faces growing operational and financial pressure. Private practices are strained by high salaries, retirements, staffing gaps, and rising per-provider costs. Health systems face added complexity because physician-based coding requires specialized expertise but yields lower reimbursement. As patient acuity, regulations, and documentation standards increase, practices must invest in scarce, highly skilled coders while managing tighter margins and greater compliance risk.

Ventra Health's professional medical coding services deliver accurate, compliant charge-capture across high-complexity specialties. Our coding experts conduct thorough chart reviews, provide documentation education, and offer accreditation and regulatory support to ensure providers are reimbursed for every service rendered.

Ventra's Coding-Only Services Include:

- ▶ **Comprehensive Chart Review**
Ventra's certified coders conduct detailed audits of provider records to identify all reimbursable services, ensuring complete and accurate charge capture aligned with work performed.
- ▶ **Level-of-Care Downcoding Support (EM)**
Ventra led the industry in the interpretation and implementation of the 2023 AMA E/M coding guidelines, resulting in an average 8% increase in collections per visit. Our team actively identifies and challenges inappropriate payer downcodes to protect provider reimbursement.
- ▶ **Accurate, Compliant Coding**
Our coding and documentation experts assess provider records to improve coding accuracy and reduce audit exposure, applying specialty-specific guidelines and current payer standards.
- ▶ **Provider Education**
Our Provider Education team offers continual feedback to help providers capture all billable services and document accurately to support the most appropriate reimbursement.
- ▶ **Gap Analysis & Documentation Alignment**
We identify discrepancies between services rendered and services coded, then work directly with providers to close those gaps through compliant documentation practices.
- ▶ **Denial Prevention**
Accurate, well-supported claims reduce denials, limit appeals, and accelerate reimbursement cycles.

Why Ventra for Coding

KEY TAKE-AWAYS

- ▶ Highly specialized coders in ANES, EM, and RAD - not generalists
- ▶ No system changes required - we work via HL7 interface or flat file in our own environment
- ▶ Enables a single unified bill for health systems while leveraging deep specialty expertise
- ▶ All coding leaders are AAPC certified
- ▶ Quick turnaround, consistent quality - 98% accuracy

WHO BENEFITS

- ▶ Providers currently coding in-house, seeking a coding-only outsourced solution
- ▶ Hospitals and health systems wanting specialty coding expertise without a full end-to-end RCM commitment
- ▶ Third-party BPOs and revenue cycle organizations needing physician specialty expertise
- ▶ Revenue cycle and specialty consulting firms looking to partner and improve coding quality for their clients

Pricing varies by volume, specialty mix, and complexity. Provider education and reporting are included in all coding-only engagements.

Who We Are

Ventra Health is a leading business solutions provider for facility-based physicians practicing anesthesia, emergency medicine, hospital medicine, pathology, and radiology. Your business is our bottom line. We partner with private practices, hospitals, health systems, and ambulatory surgery centers to deliver transparent, data-driven RCM solutions that solve the most complex revenue and reimbursement issues. We ensure your success with subject matter expertise, local payer knowledge, economies of scale, and best-in-class technology—so you can focus on providing outstanding care to your patients and communities.
